

Acoustic bracket: Phonoklip®

Ø 50, 52, 75, 78, 90 100,
110, 125, 135, 160

GIRPI Phonoklip® brackets have been specially designed to meet the support structure requirements for the **FRIAPHON®** acoustic drainage range, in both anchoring and guiding configurations.

This bracket meets both acoustic and mechanical requirements necessary for supporting pipes.

The advantages; why choose Phonoklip®?

- Phonoklip® simplifies the commercial offer and the installation rules.
- Simplified assembly:
 - anchor position (to ensure the pipes are supported),
 - guide position (allows for free movement of the pipe).
- Complete range:
 - Suitable for FRIAPHON® diameters Ø 52, Ø 78, Ø 110, Ø 135, Ø 160.
 - Suitable for standard PVC drainage networks Ø 50, Ø 75, Ø 90, Ø 100, Ø 125, Ø 160.
- Laboratory-proven acoustic performances.

- Acoustic performance measured at Fraunhofer Institut laboratories: 10dB(A).
- Structural noise tests: in accordance with EN14366 standard.

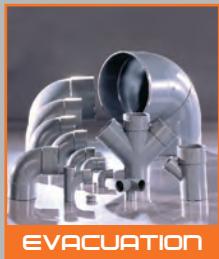

ACOUSTIC BRACKET

- Increased performance and optimised costs.
- Can be used in both vertical and horizontal positions, as well as in both anchor and guide configurations.

For optimal performances,
install one guide and one
anchor bracket per floor.
